

01

1-2 WEEKS

OPERATING SYSTEM MAP

\$7.5K-\$15K

BEST WHEN

For leaders who know disconnected work is costing the organization, but need evidence before choosing the first investment.

THE OPERATING RESULT

A decision-ready map of the first workflow, its economics, authority boundaries, implementation range, and 90-day sequence.

INCLUDED IN THE ENGAGEMENT

- Executive and operator discovery
- Current-state workflow and system map
- Friction, risk, and value analysis
- Prioritized first-workflow specification
- Implementation range and 90-day sequence

HOW THE ENGAGEMENT MOVES

01

Diagnose the operation

02

Choose the first workflow

03

Define the next investment

COMMERCIAL AND AUTHORITY BOUNDARY

This is a paid decision engagement. It does not promise implementation outcomes or authorize consequential automated actions.
